The community comprises of a diversified range of villas and apartments set in a supportive environment which includes mosques, schools and commercial and entertainment centers. These communities additionally provide green leisure space which feature the healthy and aesthetic aspects considered in all Alargan's projects.

Anyone who owns an Alargan developed villa or apartment, will enjoy the accessibility to the local amenities and public utilities. These have been designed specifically to meet the needs of the neighborhood and Alargan's desire to make things available and convenient. Alargan attaches great importance to research and the study of the requirements of its targeted market. This research is undertaken in every stage of work. This regularity supports Alargan's endeavour to transform this specialised knowledge into tangible reality: a reality that is appreciated and valued by residents of Alargan developed communities.

Since its inception, Alargan has become a leading example of the intense commitment and hard work required to provide valued services and innovative residential communities.
